

Sample Settlement Agreement Language: For insertion into draft Settlement Agreements:

Income limits for all units that are part of the municipality's Housing Element and Fair Share Plan and for which income limits are not already established through a federal program exempted from the Uniform Housing Affordability Controls pursuant to N.J.A.C. 5:80-26.1 shall be updated by the municipality annually within 30 days of the publication of determinations of median income by HUD as follows:

- a. Regional income limits shall be established for the region that the municipality is located within, based on the median income by household size, which shall be established by a regional weighted average of the uncapped Section 8 income limits published by HUD. To compute this regional income limit, the HUD determination of median county income for a family of four is multiplied by the estimated households within the county according to the most recent decennial Census. The resulting product for each county within the housing region is summed. The sum is divided by the estimated total households from the most recent decennial Census in the municipality's housing region. This quotient represents the regional weighted average of median income for a household of four. The income limit for a moderate-income unit for a household of four shall be 80 percent of the regional weighted average median income for a family of four. The income limit for a low-income unit for a household of four shall be 50 percent of the HUD determination of the regional weighted average median income for a family of four. The income limit for a very low-income unit for a household of four shall be 30 percent of the regional weighted average median income for a family of four. These income limits shall be adjusted by household size based on multipliers used by HUD to adjust median income by household size. In no event shall the income limits be less than those for the previous year.
- b. The income limits attached hereto as Exhibit B are the result of applying the percentages set forth in paragraph (a) above to HUD's determination of median income for FY 2016, and shall be utilized until the municipality updates the income limits after HUD has published revised determinations of median income for the next fiscal year.
- c. The Regional Asset Limit used in determining an applicant's eligibility for affordable housing pursuant to N.J.A.C. 5:80-26.16(b)3 shall be calculated by the Municipality annually by taking the percentage increase of the income limits calculated pursuant to paragraph (a) above over the previous year's income limits, and applying the same percentage increase to the Regional Asset Limit from the prior year. In no event shall the Regional Asset Limit be less than that for the previous year.

In establishing sale prices and rents of affordable housing units, the administrative agent shall follow the procedures set forth in UHAC, utilizing the regional income limits established pursuant to the process defined above:

- a. The resale prices of owner-occupied low- and moderate-income units may increase annually based on the percentage increase in the regional median income limit for each housing region determined pursuant to the process outlined above. In no event shall the maximum resale price established by the administrative agent be lower than the last recorded purchase price.
- b. The rent levels of very-low-, low- and moderate-income units may be increased annually based on the percentage increase in the Housing Consumer Price Index for the Northeast Urban Area, upon its publication for the prior calendar year. This

increase shall not exceed nine percent in any one year. Rents for units constructed pursuant to low income housing tax credit regulations shall be indexed pursuant to the regulations governing low income housing tax credits.
